

WHAT DO YOU KNOW ABOUT ALTERNATIVE ENERGY?

Sustainable Stocksbridge Exhibition

- How many people in Stocksbridge have solar panels and how successful are they?
- Did you know that a block of flats in Glasgow uses heat drawn from old mine workings? (Stocksbridge has lots of old mine workings)
- How efficient are wind turbines?
- What would be the cheapest, most efficient way to heat the Community Swimming Pool?
- What are the advantages/disadvantages of a domestic wood burning system?
- What other questions would you like to ask about alternative energy production?

To discover the answers to some of these questions visit the *Sustainable Stocksbridge* Exhibition in The Hub between 22nd to 27th September 2014 to learn about what energy means to residents of the area. This event will feature presentations about renewable energy Friday 26th between 6:30 to 8:00 PM in The Hub.

OPEN TALKS PROGRAM

6:30 - Welcome drinks

7:00- 8:00 - Participant Talks

“This is what energy means to me/Stocksbridge”
